

Great news has recently been announced where all students are allowed back at school on Friday. Mr Merlino's announcement is certainly welcome by parents, staff and students.

In terms of facilitating the full return the following procedures are in place for our school:

- Students will enter into the school as normal however parents/carers are not permitted on site unless attending the front office. All school gates will be opened from 8:40am, please do not congregate around gates.
- Face masks must be worn when attending the school for the continued safety of staff, students and the community. If you are attending the front office you will need to wear a mask.
- Although face masks are not required outdoors it is unlikely that parents can maintain a 1.5m social distance when collecting students at the end of the day. We therefore request parents/carers wear face masks if you are collecting your child from the school gateways.
- Breakfast club will recommence from Tuesday after the public holiday on Monday.

If there are further announcements these will be published on Facebook and emailed out.

Stay safe over the long weekend, we look forward to the students returning to school.

Ross Carlson
Principal
